

**Amendments to the Claims:**

This listing of claims will replace all prior versions, and listings, of claims in the application.

Listing of Claims:

Claim 1 (Currently Amended) A storage console for a vehicle, comprising:

a base tray assembly;

at least a first and a second upright support assembly spaced from each other and ~~attached detachably coupled~~ to said base tray assembly ~~in a first configuration and removed from said base tray assembly in a second configuration; and~~

at least two beam members spaced apart from one another and detachably interconnecting said first and second upright support assemblies, said first and second upright support assemblies interconnected by said at least two beam members and forming a frame assembly for the storage console; and

a plurality of storage modules each detachably mounted to one of said base tray and said ~~first and second upright support assemblies~~ frame assembly in one of a plurality of configurations selected by the user for providing a personalized storage solution;

wherein said plurality of storage modules, said at least two beam members and said first and second upright support assembly may be disassembled and separated from said bottom tray assembly.

Claim 2 (Cancelled)

Claim 3 (Previously Amended) The storage console as defined in claim 1, further comprising a member on one of said plurality of storage modules and one of said first and second upright support assemblies for attaching additional storage modules thereto in a configuration selected by a user.

Claim 4 (Currently Amended) The storage console as defined in claim 1, further comprising a plurality of detachable wall members cooperating with said first and second upright support members and said at least two beam members for defining one of a divider and a compartment sidewall.

Claim 5 (Currently Amended) The storage console as defined in claim 1, further comprising at least one anchoring mechanism attached to said base tray assembly for fixing said base tray assembly relative to the vehicle.

Claim 6 (Original) The storage console as defined in claim 1, wherein said base tray assembly includes:

a floor; and

at least one wall of predetermined height and length extending from an upper surface of said floor for defining an area within said base for receiving articles.

Claim 7 (Previously Amended) The storage console as defined in claim 1, wherein each of said first and second upright support assemblies detachably interconnect said base tray assembly to at least one of said plurality of storage modules.

Claim 8 (Previously Amended) The storage console as defined in claim 1, wherein said plurality of storage modules is selected from the group comprising a cup holder, a tray, a closable compartment, a file tray, and a lid assembly.

Claim 9 (Cancelled)

Claim 10 (Previously Amended) The storage console as defined in claim 1, wherein said plurality of storage modules are molded from a polymeric material.

Claim 11 (Currently Cancelled)

Claim 12 (Currently Cancelled)

Claim 13 (Currently Cancelled)

Claim 14 (Currently Cancelled)

Claim 15 (Currently Cancelled)

Claim 16 (Currently Amended) A center floor console for a vehicles, comprising:  
a bottom tray assembly;  
a frame assembly ~~attached to~~ mounted on said bottom tray assembly, ~~in a first~~

~~configuration and selectively detached from said bottom tray assembly in a second configuration~~ said frame assembly including at least two vertical supports and at least one beam detachably interconnecting said at least two supports; and

at least one storage module detachably mounted to said frame assembly;

wherein said at least two upright supports and said at least one beam of said frame assembly, and said at least one storage module are detachably interconnected so that they may be disassembled and separated from said bottom tray assembly.

Claim 17 (Currently Cancelled)

Claim 18 (Previously Amended) The storage console as defined in claim 16, further comprising a plurality of wall members detachably coupled to said frame assembly to function as one of a divider and a compartment wall.

Claim 19 (Original) The storage console as defined in claim 16, further comprising a member attached to said bottom tray for fixing said bottom tray in position relative to the vehicle.

Claim 20 (Original) The storage console as defined in claim 16, wherein said bottom tray includes:

a floor; and

a rail of predetermined height and length extending from said floor to define an area for receiving articles.

Claim 21 (Previously Amended) The storage console as defined in claim 16, wherein said frame assembly comprises at least a first and a second upright support assembly, each attached to said bottom tray; and a beam member interconnecting said first and said second upright support assemblies for depending at least one storage module thereon.

Claim 22 (Original) The storage console as defined in claim 16, wherein said at least one storage module includes at least one storage compartment.

Claim 23 (Previously Amended) The storage console as defined in claim 22, wherein said at least one storage compartment comprises one of a cup holder, a tray, and a file box.

Claim 24 (Original) The storage console as defined in claim 16, wherein said at least one storage module includes a mechanism for providing an attachment to one of said frame assembly or to a second storage module.

Claim 25 (Currently Amended) A center floor console assembly for a motor vehicle, comprising:

a bottom tray assembly;

a frame assembly having one end ~~attached~~ detachably coupled to said bottom tray assembly and a second end spaced from said bottom tray assembly, said frame assembly

including at least two upright supports and at least one beam detachably interconnecting said at least two upright supports;

a first storage module detachably coupled to said frame assembly; and

a second storage module detachably coupled to said frame assembly;

~~at least one electrical socket mounted in the center floor console;~~

wherein said at least two upright supports and said at least one beam of said frame assembly, and said first and second storage modules ~~may be disassembled and separated from said bottom tray assembly~~ are interconnected so that they may be disassembled and separated from said bottom tray.

Claim 26 (Previously Amended) The center floor console as defined in claim 25, further including a third storage module intermediate said first and second storage modules.

Claim 27 (Previously Amended) The center floor console as defined in claim 25, further including a file hanger assembly intermediate said first and second storage modules.

Claim 28 (Original) The center floor console as defined in claim 25, further including at least one storage module configured to repose on said bottom tray.

Claim 29 (Original) The center floor console as defined in claim 25, further including a rail extending along opposing sides of said bottom tray.

Claim 30 (Previously Amended) The center floor console as defined in claim 25, further including a member attached to the bottom tray for preventing the center floor console from sliding within the vehicle.

Claim 31 (Cancelled)

Claim 32 (Cancelled)

Claim 33 (Original) The center floor console as defined in claim 25, wherein said first storage module includes at least one storage compartment accessible through an opening.

Claim 34 (Previously Amended) The center floor console as defined in claim 25, wherein at least one of said first and said second storage module includes at least one tray.

Claim 35 (Previously Amended) The center floor console as defined in claim 33, wherein said at least one storage compartment includes a closable compartment.

Claim 36 (Original) The center floor console as defined in claim 33, wherein said first and said second storage modules are of different shapes and storage configurations.
